## DETAILED ACTION

### *Election/Restriction*

Claims 1-11 are pending.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11, drawn to compound of formula shown in claim 1 where both X and X' are N, namely pyrimidines, classified in class 544, subclasses 299, 301 and 303.
- II. Claims 1-11, drawn to compound of formula shown in claim 1 where X or X' is N, the other CH, namely pyridines, classified in class 546, subclasses 297 and 300.
- III. Claims 1-11, drawn to compound of formula shown in claim 1 where both X and X' are CH, classified in class 564, subclasses 336 etc. depending upon substituents in benzene ring.

Applicant(s), upon electing any one of groups, must also elect a species in that group.

The inventions are distinct, each from the other because of the following reasons:

Group I, II and III are independent and distinct from each other because they are directed to structurally dissimilar compounds that lack common core namely pyrimidines versus pyridines vs benzenoids. Consequently, the groups have different classifications and require separate prior art searches. They can be made and used independently. Art which may render obvious or anticipate one of the groups would not necessarily do the same for the other group. Each can support a patent as the compounds of each group are capable of being utilized alone not in combination with other members listed in the Markush group.

Art Unit: 1624

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Due to distinct nature of each of the inventions, a restriction is set forth in writing.
